South Island Division of Family Practice's

Learning & Connection Event

Right Care, Right Place: Putting Access into Practice

With clinics already stretched, improving access can feel overwhelming. Building on our June 17, 2026 access event, this session moves beyond the challenges to focus on changes you can make in your own practice. Join us to explore proven strategies that can make a real difference for busy physicians who want to contribute to better primary care access for their patients by **working smarter, not harder.**

Who is this session for:

- Family physicians, nurse practitioners and medical office assistants. Paid sessional and dinner will be provided for MOAs and physicians.

Here's what you can expect to learn:

- How to implement practical, clinic-tested solutions into your own practice, and how the Division can help.
- Physician leaders' updates on local and provincial access initiatives.
- Key data on emergency department use by patients attached to primary care.
- How different primary care roles can support access (physicians, MOAs)
- Collaborative solution-building and decision-making on how to best support access in the region.

Agenda:

5:30pm – Dinner
6:00pm – Welcome & context
6:15pm - Presentation by physician leaders
Mark Sherman and Sienna Bourdon
6:45pm - Facilitated learning and discussion
8:00pm – Q&A and wrap up

Tuesday, November 24, 2026

Vancouver Island Technology Park
5:30pm - 8:30pm
